

BioMed Change Volume Summary

Prepared June 26, 2026 — combined summary of client-request volume and repo-backed implementation work. Newest items are numbered highest in each section.

Client Request Volume

Total asks	Done / present	Waiting on data	Clarify	Not done / design	Ready / not built
127	61	20	15	20	11

Implemented Work Volume

Committed changes	File-level changes	Files added	Files modified	Files deleted	Active days
361	1,286	320	928	38	20

Section	What It Shows
1. Client Edit Request Log	127 logged client asks/questions. Measures request volume, not only completed tickets.
2. Implemented Change Log	339 repo-backed implementation steps from Git history (1,286 file-level change events). Manual AGOL-only work is not counted unless reflected in Git or notes.

Read as two ledgers: the first is what the client asked for; the second is the implementation activity required to keep changing the product. They are intentionally not one-to-one.

BioMed Client Edit Request Log

Prepared June 26, 2026 — reverse-numbered, newest at top. Total logged client asks: 127.

Total asks	Done / present	Waiting on data	Clarify	Not done / design	Ready / not built
127	61	20	15	20	11

#	Area	Ask	Status	Notes
127	Regional Story Explorer	Verify Units = all products or RBC only; rename the label clearly	Done / present	Confirmed TotalColl = RBC; relabeled 'FY25 Units' -> 'FY25 RBC Units'.
126	Final polish	Fact-check education tiles, confirm sources, clean labels, reduce clutter; every section supports an executive/fundraising conversation	Waiting on data	NEEDS (client): source confirmation for the education-tile facts before final fact-check / label cleanup.
125	Process	Prepare for Josh review — complete edits, then Troy sends to Josh	Clarify	SEQUENCED: after all edits land, Troy sends to Josh for next-level feedback. No action until edits complete.
124	Authentication	Explore a dedicated guest account so NHS users don't each need an RCVU account	Waiting on data	NEEDS (RC IT decision): provision a dedicated guest/app account so NHS users don't each need an RCVU login.
123	Content	Compare against the Cliff Roadshow deck (sample from Jennifer/Fred) for missing exec talking points	Waiting on data	NEEDS (Jennifer/Fred): a sample Cliff Roadshow deck, to check for missing executive talking points.
122	Fixed Site Story	Investigate a separate Fixed Site PDF/story (AI or existing data)	Design / investigate	
121	Mobile Story	Decide on Mobile donor % — move to a summary tile if space allows, else keep as a small supporting slide	Clarify	
120	Regional Story Explorer	Move the regional PDF/story link from the Mobile section to the main Region Summary page	Done / present	Field Report (PDF) link moved from Mobile slide 3 to the Overall Summary slide.
119	Disclaimer	Keep boundary exceptions simple — disclaimer + link + possible multi-select; no new exceptions tool	Done / present	Multi-select shipped; disclaimer+link pending the URL.
118	Disclaimer	Add a One Red Cross 'Learn More' link to the existing Geography/Mapping Hub documentation	Waiting on data	NEEDS (client): the One Red Cross Geography/Mapping Hub URL. Then add a one-line 'Learn More' disclaimer link — code ready, just the URL.
117	Regional Story Explorer	Multi-select BioMed regions (one HS region spans multiple, e.g. North Carolina)	Done / present	Shipped 2026-06-26 (Shift/Cmd-click).
116	Regional Story Explorer	Ensure clicking the map boundary selects a region	Done / present	Verified the footprint click-to-select works (hitTest -> flyToRegion, now modifier-aware).

#	Area	Ask	Status	Notes
115	Regional Story Explorer	Fix region boundary outlines/shading to appear consistently	Done / present	Region outline now cleared on reset (no lingering ring); single + multi outlines draw after flight.
114	Terminology	Audit all 'FY25' labels for accuracy; update static labels where data is dynamic	Done / present	Audited 71 occurrences; 64 live-dynamic, FY25 labels accurate now. Dynamic-FY constant noted as future hardening.
113	Hospital Distribution	Keep current-year only — no FY25/FY26 historical comparisons	Done / present	Lens is FY25-only; verify.
112	Hospital Distribution	Review wording 'Hospital' vs 'Customer' — consider 'Customer Distribution' or 'Hospital & Customer Distribution'	Done / present	Renamed dashboard/tile/chapter to 'Hospital & Customer Distribution' (display only; route/testid unchanged).
111	Hospital Distribution	Remove individual hospital/customer points; keep aggregated distribution only	Done / present	Hospitals off map 2026-06-26.
110	Hospital Distribution	Replace ZIP-code shading with County-level shading	Design / investigate	Needs county-aggregated volume.
109	Mobile Story	Don't overload Mobile slides — keep each to 3-4 key stats max	Done / present	Verified: 3 Mobile slides, each <=3-4 stats. No overload.
108	Mobile Story	Add a Sponsor Type breakdown visual (Education / Community / Business / Other), uncluttered	Waiting on data	Need sponsor-type field/source.
107	Terminology	Use 'Fixed Sites' consistently; remove old nuanced definitions	Done / present	Normalized narrative + labels to 'Fixed Sites' (33 region narratives + KPI/heading/definitions).
106	Fixed Site Story	Add the current total Fixed Site count to the Fixed Site opener; tie to live data + auto-update	Waiting on data	Confirm fixed-site layer for live count.
105	BioMed Collections Tile	Round Executive Summary numbers to clean talking-point figures (e.g. '5.9 million')	Done / present	Rounded the Collections exec overview stats.
104	Regional Story Explorer	Multi-select regions (e.g. Eastern + Greater Carolinas = whole state) and show combined totals in the summary metrics	Done / present	Shift/Cmd-click toggles regions into a combined set; Overall Summary KPIs + map outline/extent show the combined totals (verified: combined IN-query = sum of solos). Site stories stay single-region.
103	Hospital Distribution	Do not include hospitals on the map	Done / present	Hospitals layer set off by default + dropped from the preset; no pins. Still toggleable in the Layers tab.
102	Hospital Distribution	Add a total customer count under the accounts field	Done / present	Customers KPI = sum of Accts (2,370 national), geography-scoped, in the Overview band.
101	Hospital Distribution	Remove hospital details from the site tab; keep the hospital count	Done / present	Hospital detail cards gone (layer off map). Hospital count kept as a scoped Overview stat (1,726 national).
100	About the Data	Put the About the Data button back	Done / present	Restored globally; hidden on map/dashboard routes with their own help.
99	Fixed Site Trade Area View	Remove red circle around fixed sites	Done / present	Extra selected-site ring removed.
98	Fixed Site Trade Area View	Add county to map	Done / present	County context retained.

#	Area	Ask	Status	Notes
97	Fixed Site Trade Area View	Add legend to map	Done / present	Legend includes reach/county/site context.
96	PDF file	Put Top Sponsors back in	Done / present	Sponsor roster restored.
95	PDF file	On page 5 rename Collection Opportunity to Saturation	Done / present	Existing static PDFs need regeneration if already exported.
94	Region Explorer	Update map to be just shaded region boundaries with division outline	Done / present	Clean region-picker state restored.
93	Infrastructure Dashboard	Verify Collection Ops layer shows on map	Done / present	Included in infrastructure preset.
92	Infrastructure Dashboard	Adjust layer descriptions below	Done / present	Updated visible layer descriptions.
91	Infrastructure Dashboard	Remove Fixed Sites from FY25 Performance on right	Done / present	Still appears under Network Assets.
90	Terminology	Use Sites instead of Centers consistently	Done / present	Visible labels swept where appropriate.
89	Terminology	Use Units instead of Collections consistently	Done / present	Visible labels swept where appropriate.
88	Jurisdiction Dashboard	Verify Collection Ops layer shows on map	Done / present	Included in relevant presets/deployed bundle.
87	Jurisdiction Dashboard	Add legend	Done / present	Legend support verified.
86	Jurisdiction Dashboard	Add the map from the Jurisdiction dashboard	Done / present	Existing map retained.
85	Jurisdiction Dashboard	Do side panels allow for 3D boxing?	Not done by agreement	Client said OK if it does not.
84	Reference Library	Modify the Excel file and include it under Reference folder in About this Data	Done / present	Excel workbook added to About the Data modal.
83	Reference Library	Include a Last Validated column	Done / present	Added to in-app source metadata and CSV.
82	BioMed Collections	Client can get donors and add to Jurisdiction data	Done / present	DonorCount field now in ARC Jurisdiction layer 8; wired to region rollup + Total Donors KPI.
81	BioMed Collections	Power Reds are with the ARC Jurisdiction data	Done / present	PowerRed field confirmed in ARC Jurisdiction layer 8 (sum 931,555); wired to Collections tile + region KPI.
80	BioMed Collections	Tile looks good for now	Done / present	Left as-is.
79	Deck Order	Current slide 10 should be at the end	Done / present	Collections deck order changed.
78	Deck Order	Current mobile slides should be last	Done / present	Collections deck order changed.
77	Deck Order	Current fixed site slides become slides 5, 6	Done / present	Collections deck order changed.
76	Deck Order	Current slides 7, 8, 9 become slides 2, 3, 4	Done / present	Collections deck order changed.
75	BioMed Collections Tile	Product type total - Power Reds	Done / present	PowerRed national total 931,555 added to Collections tile product totals.
74	BioMed Collections Tile	Product type total - Plasma	Done / present	Shown in product type metrics.

#	Area	Ask	Status	Notes
73	BioMed Collections Tile	Product type total - Platelets	Done / present	Shown in product type metrics.
72	BioMed Collections Tile	Product type total - Red Cells	Done / present	Shown in product type metrics.
71	BioMed Collections Tile	Key metric - Total products collected	Done / present	Included in overview metrics.
70	BioMed Collections Tile	Key metric - Total donors annually	Done / present	DonorCount national total 3,147,681 added to Collections tile.
69	BioMed Collections Tile	Use summary text about lifesaving products through multiple donation methods	Done / present	Summary copy included.
68	BioMed Collections Tile	Use headline like How Blood is Collected Across the U.S.	Done / present	Used as executive overview framing.
67	BioMed Collections Tile	Include Total Blood Products - RBC + Platelets + Plasma	Done / present	Product total shown from current source assumptions; final source audit still matters.
66	BioMed Collections Tile	Include Total Donors	Done / present	Total Donors 3,147,681 (DonorCount) added to Collections tile.
65	BioMed Collections Tile	Show multiple ways to give	Done / present	Donation method/product framing added.
64	BioMed Collections Tile	Explain what collections is as a narrative	Done / present	Narrative overview added to Collections slide 1.
63	BioMed Collections Tile	Slide 1 Executive Overview - Can CoPilot do this?	Done / present	Executive overview structure added.
62	BioMed Collections Tile	Insert a slide that will be the new slide 1	Done / present	Became the Collections executive overview slide.
61	Regional Story Explorer - Fixed Clip	Will it clip items not in region?	Design / investigate	Confirm current selected-region filtering for fixed-site points/trade-area layers; add clipping/filtering where missing.
60	Regional Story Explorer - Fixed Labels	Labels when zoomed in.	Design / investigate	Define zoom-threshold labels for fixed sites, Counties, and trade areas.
59	Regional Story Explorer - Fixed Trade Area	Missing Mobile Donors under Platelet Trade Area.	Waiting on data	Inspect Platelet trade-area layer fields for Mobile Donors. If absent, decide whether to derive by ZIP/region/mobile-drive overlay or mark unavailable.
58	Regional Story Explorer - Fixed Legend	Legend.	Design / investigate	Add story legend tied to active fixed-story layer set.
57	Regional Story Explorer - Fixed Layers	Are we able to toggle layers on/off, including Counties?	Design / investigate	Reuse one story-layer toggle component for Mobile and Fixed.
56	Regional Story Explorer - Mobile Clip	Will it clip items not in region?	Design / investigate	Confirm current selected-region filtering for mobile drives and county overlays; add geometry/attribute clipping where missing.
55	Regional Story Explorer - Mobile Labels	Labels when zoomed in.	Design / investigate	Define label thresholds for Counties/regions/drives and avoid labels at initial zoom.
54	Regional Story Explorer - Mobile Legend	Legend.	Design / investigate	Add story legend tied to active mobile story layer set.

#	Area	Ask	Status	Notes
53	Regional Story Explorer - Mobile Layers	Are we able to toggle layers on/off, including Counties?	Design / investigate	Add a compact story-layer toggle pattern if the current map shell toggles are not available in tour mode.
52	Regional Story Explorer - Initial Map	Map is not showing just Region shading with Division outline.	Design / investigate	Verify current initial tour map state after recent edits; adjust startup layers to region shading + division outline only.
51	Regional Story Explorer - Left Sidebar	Make the left sidebar an accordion: Tour, Layers, Legend.	Design / investigate	Inspect the current Explorer sidebar and refactor it into accordion sections before adding one-off layer/legend controls.
50	Infrastructure Dashboard - Collection Ops	Not seeing Collection Op layer.	Clarify	Decide whether Collection Operations belongs in Infrastructure by default or only as a layer toggle; then update preset/layer list if needed.
49	Infrastructure Dashboard - Site Cards	Not seeing site address under all sites.	Design / investigate	Inspect address fields across Warehouse, Manufacturing, Kitting, IRL, Distribution, Fixed Sites, and Hospital layers; update card model/list rows to show address where present.
48	ARC Jurisdiction - Side Summary	Can I add numbers to summarize on the side?	Done / present	Region side summary now shows Power Reds + Total Donors KPIs from layer 8 rollout.
47	ARC Jurisdiction - Operations Layers	It takes a while to see Collection Ops and DRD AM Portfolio. Can we see labels?	Design / investigate	Check layer draw time and whether labels should appear only beyond a zoom threshold. Consider lazy/on-demand labels for Collection Ops and DRD AM Portfolio.
46	ARC Jurisdiction - Fixed Sites	Can we remove other sites? Client will check with Jennifer.	Clarify	Wait for Jennifer decision. If approved, add a "focus selected site" or fixed-site-only map mode rather than deleting layers.
45	ARC Jurisdiction - Fixed Sites	Can fixed sites show Site Name, Site Address, Site State, and Site Zip Code all on screen at once?	Design / investigate	Confirm exact field names on the Fixed Sites layer, then compress the fixed-site card/list rows to show name + address/state/ZIP.
44	ARC Jurisdiction - Regions	Can Regions clip based on Division?	Design / investigate	Test Division-only selection in ARC Jurisdiction and confirm whether Biomed Regions layer is definition/spatial filtered to the selected Division. If not, add division-scoped filtering for the Regions layer and dropdown.
43	National Report	Shows just DC Area; should it show country?	Clarify	Need route/button/context: identify which National Report entry opens DC area and whether it should default to national scope.
42	Regional Story Explorer - Fixed Site	Can it toggle based on heat map buttons?	Design / investigate	Tie trade-area layer toggle to heat-map controls if data/layers support both RBC and SDP.
41	Regional Story Explorer - Fixed Site	Would like FS RBC and SDP trade area on map	Design / investigate	Need current blessed RBC and SDP trade-area layers. RBC exists; SDP source needs confirmation.
40	Regional Story Explorer - Fixed Site	Add Mobile Donors in Trade Area	Clarify	Need source method: mobile donors within fixed-site trade-area polygon, by ZIP/county overlap, or precomputed field.
39	Regional Story Explorer - Fixed Site	Remove 2nd slide	Ready / not built	Remove current second fixed-site slide.
38	Regional Story Explorer - Fixed Site	Fit all on one page	Design / investigate	Rework selected-site detail layout to avoid multi-page/scroll overflow.

#	Area	Ask	Status	Notes
37	Regional Story Explorer - Fixed Site	Keep rank, but what is rank based on?	Clarify	Need rank basis: by RBC units, SDP units, donors, growth, or trade-area performance.
36	Regional Story Explorer - Fixed Site	What is region's share?	Clarify	Need formula: selected fixed-site share of regional RBC? SDP? donors? mobile + fixed?
35	Regional Story Explorer - Fixed Site	After clicking site: remove donors and RBC donors	Ready / not built	Remove those metrics from selected-site detail.
34	Regional Story Explorer - Fixed Site	Remove verbiage	Ready / not built	Strip explanatory prose from Fixed Site story.
33	Regional Story Explorer - Mobile Tab	Add 3rd slide: red box, PDF reports	Clarify	Need intended content/layout for new third slide; likely report links/cards.
32	Regional Story Explorer - Mobile Tab	Put red box on 3rd slide	Clarify	Need screenshot/video timestamp or exact target content for red box.
31	Regional Story Explorer - Mobile Tab	Remove black section: "Mobile drives carry the region's reach"	Ready / not built	Remove the black callout/section.
30	Regional Story Explorer - Mobile Tab	2nd slide: add drives bar chart here	Waiting on data	Add bar chart to Mobile slide 2 using drive counts by year/month/category as available.
29	Regional Story Explorer - Mobile Tab	Include CY25 Donors	Clarify	Client asked: where does this come from? Need field/source before using.
28	Regional Story Explorer - Mobile Tab	Include CY25 Sponsors	Waiting on data	Add KPI once field/source confirmed.
27	Regional Story Explorer - Mobile Tab	Include CY25 Mobile Units	Waiting on data	Add KPI once field/source confirmed.
26	Regional Story Explorer - Mobile Tab	Include CY25 Blood Drives	Waiting on data	Add KPI once field/source confirmed.
25	Regional Story Explorer - Mobile Tab	Remove verbiage	Ready / not built	Remove explanatory prose from Mobile tab/slides.
24	Regional Story Explorer - Mobile Tab	Move Field Report to inside Mobile story	Ready / not built	Add Field Report/PDF access inside Mobile story.
23	Regional Story Explorer - Region Summary	Do not need last slide; will be in Mobile section	Ready / not built	Remove final summary/report slide from Region Summary and move relevant report entry into Mobile.
22	Regional Story Explorer - Region Summary	Remove Slide 2 Overall Summary	Ready / not built	Remove current second Overall Summary slide.
21	Regional Story Explorer - Region Summary	Keep just the first slide	Ready / not built	Region Summary should become a single-slide summary.

#	Area	Ask	Status	Notes
20	Regional Story Explorer - Region Summary	Move Field Report (PDF) to Mobile section	Ready / not built	Remove Field Report from Region Summary and place inside Mobile story.
19	Regional Story Explorer - Region Summary	Include Latino Donors	Clarify	Need exact donor field/source and whether this is donor count, units, or share.
18	Regional Story Explorer - Region Summary	Include AA Donors	Clarify	Need exact donor field/source and whether this is donor count, units, or share.
17	Regional Story Explorer - Region Summary	Include Total Population	Waiting on data	Use population rollup for selected region; confirm current field/year.
16	Regional Story Explorer - Region Summary	Include # Counties	Waiting on data	Count counties for selected region from geography layer/source.
15	Regional Story Explorer - Region Summary	Include FY25 SDP Collections	Clarify	Need source field/layer for SDP collections.
14	Regional Story Explorer - Region Summary	Include FY25 RBC Collections	Waiting on data	Add to Region Summary once field/source confirmed.
13	Regional Story Explorer - Region Summary	Remove verbiage at top	Ready / not built	Remove introductory/top explanatory copy from Region Summary.
12	Regional Story Explorer	Would like to see region footprint with division outline on map to select	Done / present	DONE aea8709. Supplements the list (kept as backup). Map draws every BIOMED region footprint filled/outlined in its division color when the tour is open with no region selected; click a footprint → flyToRegion; overlay hides once a region is chosen. Source: Biomed Regions layer (field Biomed_Region), queried once + cached.
11	Infrastructure Dashboard	Verify stats	Waiting on data	Identify infrastructure metrics and source layers before adding or changing numbers.
10	Infrastructure Dashboard	Add Infrastructure Dashboard	Done / present	DONE 3ad255d. Now a standalone hub card (08) → /infrastructure-dashboard (INFRASTRUCTURE_BRAND on the jurisdiction engine, infrastructure layer preset). Stats still to verify (next row).
9	BioMed Atlas	Replace with Infrastructure	Done / present	DONE 3ad255d. BioMed Atlas hub card (tile 07) dropped; Infrastructure Dashboard is now its own hub card (tile 08). The Atlas page/route /biomed-ops-workbench stays (the Regional Story Explorer tour reuses it via /ops?tour=1).
8	Biomed Dashboard	Change that to be just ARC Jurisdiction	Done / present	DONE. Merged "BioMed Dashboard" tile split into 3 standalone cards (3ad255d); tile 06 renamed to **ARC Jurisdiction** per Troy (card title, app-bar title, sign-in heading, About title, data-sources tag). Route /jurisdiction-dashboard unchanged.
7	BioMed Collections	Fixed stats seem low for plasma	Done / present	Updated Plasma Units Collected at Fixed Sites a Year from 15,477 to Troy dashboard value 54,102; source ledger now marks it client-confirmed.
6	BioMed Collections	Verify stats	Waiting on data	Use number-source trace; especially mobile sponsor/drive/unit totals and student donor dependence.

#	Area	Ask	Status	Notes
5	BioMed Collections	Mobile stats do not include RSMOs	Clarify	Need to confirm desired replacement: include RSMO fixed-site/mobile contribution, add note/disclaimer, or split current mobile stats from RSMO stats.
4	Future Demand	Verify stats	Waiting on data	Use number-source trace; this is likely the most sensitive section. Confirm projection method and source packet before editing copy.
3	Hospital Distribution	Verify stats	Waiting on data	Use number-source trace; confirm hospital count, daily RBC need, inventory threshold, Asheville story, and FY25 weather cancellation numbers.
2	Blood Journey	Verify stats	Waiting on data	Use number-source trace; confirm story-specific stats like 10 minutes, 40% blood loss, 56 days earlier, HBV risk, and Babesia tests.
1	Blood 101	Verify stats	Waiting on data	Use docs/NUMBER-DOCUMENTATION-UNIVERSE-01-05.md; attach exact source for each number before content changes.

BioMed Implemented Change Log

Prepared June 26, 2026 — repo-backed work ledger from Git history. Newest at top. Scope: 2026-05-23 through 2026-06-26.

Committed changes	File-level changes	Files added	Files modified	Files deleted	Active days
361	1,286	320	928	38	20

#	Date	Area	Change Made	Status	Evidence / Notes
339	2026-06-26	Deck / Hub / Content	Exec-review batch: rename to Hospital & Customer Distribution, RBC Units label, Fixed Sites wording, move PDF link, boundary outline clear	Implemented in Git	Rename across 6 user-facing files (route/testid unchanged). 'FY25 Units'->'FY25 RBC Units' (TotalColl=RBC). 'Fixed Sites' normalized (33 narratives + labels). Field Report link Mobile->Overall Summary. Tour outline cleared on reset. FY labels + Mobile load verified OK. Tests updated.
338	2026-06-26	Region Explorer / Reports	Fix Number of Counties (was blank) — count counties spatially	Implemented in Git	biomed_counties is keyed to HS geography (Region='North Carolina Region'), so it never name/code-joined to FY25 BioMed operational regions (Eastern North Carolina) -> county count was always '—'. Now counts counties whose polygon intersects the Biomed_Regions boundary (layer 3) union. Fixes single + multi-select. Verified: Eastern NC 61, Greater Carolinas 83.
337	2026-06-26	Region Explorer / Reports	Region Explorer multi-select with combined metrics	Implemented in Git	Shift/Cmd-click combines regions: fetchRegionsRbc (Biomed_Region IN sum), drawRegionsOutline (one ring per region), combined extent + population, combined header, stories scoped to single region. regionRbc.ts/biomedGeography Filter.ts/BiomedOpsWorkbenchPage.tsx/RegionTour.tsx(+css)/tests. Request #104.
336	2026-06-26	Dashboards	Hospital Distribution review: hospitals off map, Customers KPI, keep hospital count	Implemented in Git	Client 2026-06-26: (1) hospitals off the map — Hospitals layer defaultVisible false + dropped from preset (still toggleable); (2) Customers KPI = sum Accts (2,370); (3) hospital detail cards gone from Sites tab, hospital count kept as scoped Overview stat (1,726). Request log #101-103.
335	2026-06-25	Dashboards	Add client's Hospitals layer to Hospital Distribution lens	Implemented in Git	Found Troy's hospital layer: DistributionHospitalMap service item faf14bfe32824999b525b90563e12da7, sublayer /0 Hospitals (1,726 pts, behind his 'Hospital Distribution' web map ed51d87). Not in any web map our app loads -> why no hospitals showed. Added Hospitals /0 as single-sublayer supplemental (new layerUrl path in addArcgisPortalLayers) + preset turns it on. Buffers/states in same service intentionally excluded.

#	Date	Area	Change Made	Status	Evidence / Notes
334	2026-06-25	Dashboards	Add Hospital Distribution dashboard lens on FY25TotalVolume (volume choropleth, div/region/district filter, product-total KPIs, distribution + IRL site overlays)	Implemented in Git	New 4th jurisdiction-engine lens at /hospital-distribution + hub tile 07a. FY25TotalVolume item 8481970249d4413cb41ccf2ae53e3d52 (Troy/ARC_BioMed). KPIs: Total Products 6,011,063 / Red Cells 4,044,228 / Platelets 968,329 / Plasma 31,892. Blue choropleth, Division/Region/District filter (values verified to match base layer), Distribution+IRL sites via preset. Client request 2026-06-25.
333	2026-06-25	Deck / Hub / Content	Wire Power Reds + Total Donors from ARC Jurisdiction layer (PowerRed/DonorCount fields)	Implemented in Git	Layer 8 PowerRed (931,555) + DonorCount (3,147,681) confirmed via AGOL. Region rollup (regionRbc.ts) + RegionTour KPIs + Collections tile totals; unblocks request-log #48/66/70/75/81/82.
332	2026-06-24	Deck / Hub / Content	Address client feedback batch	Implemented in Git	a9a6f95 - 20 files (2 added, 18 modified): Biomed V2 Presentation Sources.csv, Biomed-V2-Presentation-Sources.csv, Biomed-V2-Presentation-Sources.xlsx (+17)
331	2026-06-24	Deck / Hub / Content	Make Collections overview a deck slide	Implemented in Git	93d8a6c - 7 files (6 modified, 1 deleted): biomed-collections-executive-plan-b.png, SlideDeck.css, hubInfo.ts (+4)
330	2026-06-24	Deck / Hub / Content	Remove hub data and help controls	Implemented in Git	5eaa0bb - 4 files (4 modified): App.tsx, HubPage.css, HubPage.tsx (+1)
329	2026-06-24	Deck / Hub / Content	Fix collections overlay behavior	Implemented in Git	37d5a64 - 4 files (4 modified): biomed-collections-executive-plan-b.png, HubPage.css, HubPage.tsx (+1)
328	2026-06-24	Deck / Hub / Content	Use Plan B collections overview overlay	Implemented in Git	fc95dca - 4 files (1 added, 3 modified): biomed-collections-executive-plan-b.png, HubPage.css, HubPage.tsx (+1)
327	2026-06-24	Deck / Hub / Content	Add collections executive overview popup	Implemented in Git	3752e0a - 4 files (4 modified): hubInfo.ts, HubPage.css, HubPage.tsx (+1)
326	2026-06-23	Region Explorer / Reports	Add Explorer layer and legend tabs	Implemented in Git	834b92d - 4 files (4 modified): RegionTour.css, RegionTour.tsx, BiomedOpsWorkbenchPage.tsx (+1)
325	2026-06-23	Dashboards	Fix region-scoped map layers and legends	Implemented in Git	c6a7613 - 12 files (12 modified): MapLayerLegend.tsx, RegionTour.css, RegionTour.tsx (+9)
324	2026-06-23	Dashboards	Clean jurisdiction layers and fixed-site card	Implemented in Git	7cf68f7 - 6 files (1 added, 5 modified): MapLayerLegend.tsx, presentationStyle.ts, JurisdictionDashboardPage.css (+3)
323	2026-06-23	App / Engineering	Document June 23 client edit batch	Implemented in Git	5738a41 - 1 files (1 modified): CLIENT-CHANGE-TRACKER-2026-06-22.md
322	2026-06-23	Dashboards	Suppress ARC Jurisdiction map labels	Implemented in Git	2b26a72 - 1 files (1 modified): JurisdictionDashboardPage.tsx
321	2026-06-23	Maps / GIS	Add central HQ drive location analysis	Implemented in Git	23da16e - 4 files (4 added): central_atlantic_best_location_map.png, central_atlantic_best_location_summary.md, central_atlantic_hq_rankings.csv (+1)

#	Date	Area	Change Made	Status	Evidence / Notes
320	2026-06-23	Region Explorer / Reports	Update regional story map reach overlays	Implemented in Git	b322ef9 - 4 files (4 modified): RegionTour.css, RegionTour.tsx, tradeAreaStats.ts (+1)
319	2026-06-23	Region Explorer / Reports	Fix regional county count source	Implemented in Git	b1b7f9f - 1 files (1 modified): regionRbc.ts
318	2026-06-23	Deck / Hub / Content	Remove Korean Future Demand sourcing	Implemented in Git	6ba73c0 - 1 files (1 modified): Biomed V2 Presentation Sources.csv
